Unveil Your Smile

BrightTonix

Y10

If you are:

Regularly smoking and drinking coffee.

Unhappy with the usual teeth whitening methods.

Interested in whitening and rejuvenating your oral cavity in a healthy, pain free technique.

Then

BrightTonix Y10  
Teeth Whitening and  
Mouth Rejuvenation  
is for You!

## How Does Y10 Work?

The Y10 system uses a revolutionary and intelligent technique, employing a low power radio-frequency (RF) current and a unique toothpaste that removes stains from the teeth enamel.

The bipolar radio frequency, generated by the Y10, utilizes a specially designed mouthpiece, combined with a one of a kind toothpaste to pass an RF current through a defined volume and generate an electro-chemical reaction that changes the structure of stains on the tooth. Y10's innovative toothpaste contains Hyaluronic Acid that rejuvenates the oral cavity and refreshes the teeth.

## How is Y10 Different?

While current teeth whitening solutions, based on Hydrogen Peroxide or Carbamide Peroxide, cause pain and burning sensations during and post procedure, the BrightTonix Y10 system provides great results in teeth Whitening.

BrightTonix Y10 is also the first ever system to provide a full anti aging rejuvenation effect to the oral cavity. Coupled with a pleasant, safe, pain-free experience, the unique technology also allows for frequent treatments.

## The Benefits of Using Y10

**Y10 is Faster:** Employs a low power radio-frequency (RF) technology to remove stains from teeth enamel and rejuvenates the oral cavity in a relatively short period of time.

**Y10 is Safer:** Eliminates the potential risks from abuse or poor application of current teeth whitening treatments. While doing so, Y10 creates a rejuvenation effect without any pain or damage to the oral cavity and without using any harmful materials.

**Y10 is Brighter:** Y10 can effectively whiten any teeth shade while successfully creating an anti aging effect to the teeth and gums, creating a brighter smile.

## What are other patients saying about the Y10?

*"Painless, Fresh, Bright"*

*"I feel refreshed and am very happy with the results"*

*"The Y10 has by far the best results I've seen and with no pain at all!"*

*"This is a big win for those wanting a whiter, brighter smile but are concerned about the side effects that may come along with damaging products and procedures."*

*"This is so much more comfortable than any treatment I've done!"*
